Beyond Colour. Australia's Premium Steel Choice.

Inspired by the versatility and strength of steel, UniCote® has refined a four-tiered product suite that delivers innovative performance based solutions for all locations, striking patterns and colours, personalised service and a genuine choice in colour steel and aluminium.

unicote.com.au

Project	Mercedes Benz Breakfast Creek
Product	UniCote® Coastal
Finish	Ebony
Profile	Speed Deck Ultra 700

Benefits

Beneath the captivating aesthetic of UniCote® steel lies a set of qualities that ensure enduring performance and long-lasting allure for your next striking project. With rigorous testing, an extensive colour range, innovative coatings and more, we welcome you to delve deeper into understanding what makes UniCote® truly exceptional.

Non-Combustible Fire rated and compliant to AS1530.1 / AS1530.3. Manufactured for the most extreme BAL-FZ category.	Solutions for all Locations Four-tiered steel and aluminium solution offering versatility and choice.	Tested in Australian Conditions Manufactured to AS/NZS 2728:2013 and rigorously tested to perform in the harshest conditions throughout Australia.
Strong Warranties Warranties up to 30 years. Pre-approved within 48 hours.	Wide Range of Colours Over 70 colours and textured patterns to inspire your building design.	Low Maintenance Long lifespan and durability with minimal upkeep.
Environmentally Sustainable Our mills utilise Electric Arc Furnace (EAF) technology which can produce up to 85% less carbon dioxide emissions than blast furnaces.	Thermal Efficiency UniCote® utilises cool pigment technology to reflect more of the sun's heat, helping keep buildings cooler in the warmer weather.	

Project	Y-House
Product	UniCote® Coastal
Finish	Monolith
Profile	Stramit Longspan

Solutions for all locations

UniCote's diverse range of solutions, including Select, Coastal, Extreme, and LUX, caters to a spectrum of architectural and design challenges.

Whether adapting to various applications, providing robust protection against coastal elements, ensuring durability in extreme weather, or adding a touch of luxury, UniCote's offerings ensure high-end performance and aesthetic appeal for all locations.

UniCote® Select

Endurance in colour steel

UniCote® Select effortlessly combines durability with aesthetic allure, showcasing an extensive array of colors and profiles. It harmoniously unites form and function, delivering impeccable quality.

Distance from marine: 1000m+

Available in:
Essential Range | Tasman Range

UniCote® Coastal

For that extra protection

UniCote® Coastal, the ultimate steel solution for the Australian coastline, provides unparalleled corrosion resistance to withstand the harsh conditions of marine environments.

Distance from marine: 0 - 400m+

Available in:
Essential Range | Tasman Range

UniCote® Extreme

For demanding environments

UniCote® Extreme sets a new standard for aluminium materials, designed for use in very severe marine environments right up to the waterline, industrial applications and high-end buildings inland.

Distance from marine: 0m+

Available in:
Essential Range | Tasman Range

UniCote® LUX

Where art meets steel

UniCote® LUX is a premium pre-painted steel solution designed to suit Australian high-end architecture, by combining the beauty of natural finishes with the strength of steel.

Distance from marine: 400m+*

Available in:
LUX Range

*Warranty applications will be considered under 400m dependent on project specifics.

Project | North Bellarine Aquatic Centre
Product | UniCote® LUX
Finish | Corten Red
Profile | Interlocking Panel

Over 70 colours and patterns

UniCote® offers a wide range of colours and patterns to choose from, including classic and contemporary colours, a new Hamptons collection to compliment fresh coastal designs, and unique textures replicating timber, zinc and corten to inspire stunning architectural designs.

LUX Range

Maximise your architectural creativity and go beyond simple building materials. Designed to suit Australian high-end architecture, UniCote® LUX offers a unique premium range of modern patterned and textured steel finishes.

Available in:
UniCote® LUX

Hamptons Collection

Our Hamptons collection integrates well with a timeless mix of natural materials like timber, concrete and flora. Centered around whites, neutrals, greens and blues, the collection offers endless pairing opportunities to create a sophisticated coastal feel.

Available in:
UniCote® Select | Coastal | Extreme

Tasman Range

Inspired by the captivating New Zealand and Pacific landscape, this extension of our UniCote® colour range offers a stunning palette of hues, delivering a touch of natural beauty and harmonious aesthetics to architectural projects.

Available in:
UniCote® Select | Coastal | Extreme

Essential Range

Explore our UniCote® Essential range, offering a diverse palette of 23 captivating colours. Whether you prefer timeless classics, modern shades or coastal Hamptons-inspired colours we have the perfect selection to enhance the beauty of the Australian landscape.

Follow us @unicotesteel

Solar Absorptance (SA) is the fraction of the total incident solar radiation that is absorbed by the roofing material. It is expressed as a ratio between 0 and 1, with a lower number a cooler option. These are nominal values calculated in accordance with ASTM E 903-96.

Solar Reflectance Index (SRI) is a measure of the solar reflectance and emissivity of materials. Measured on a scale of 0 (least reflective) to 100 (most reflective). These are nominal values calculated in accordance with ASTM E1980-11.

The colours, patterns and design shown are provided as a guide only. We strongly recommend comparing your choice with an actual steel sample as colour and textural variations may apply. Please check availability of your chosen colour with your supplier. UniCote® is a registered trade mark of Selection Steel Trading Pty Ltd. © 2023 Selection Steel Trading Pty Ltd. ABN 37 005 324 407.
