Metallic Metal
SA 0.66 | SRI 37

Solutions for all locations

The Tasman colour range is available across UniCote® Select, Coastal and Extreme, giving specifiers the flexibility to maintain colour consistency while responding to different environmental conditions.

From standard applications through to coastal and more demanding project environments, the range supports a cohesive design outcome backed by steel and aluminium solutions engineered for performance, durability and long-term resilience.

UniCote®Select

Endurance in colour steel

UniCote® Select effortlessly combines durability with aesthetic allure, showcasing an extensive array of colors and profiles. It harmoniously unites form and function, delivering impeccable quality.

Distance from marine: 1000m+

UniCote®Coastal

For that extra protection

UniCote® Coastal, the ultimate steel solution for the Australian coastline, provides unparalleled corrosion resistance to withstand the harsh conditions of marine environments.

Distance from marine: 0 - 400m+

UniCote®Extreme

For demanding environments

UniCote® Extreme sets a new standard for aluminium materials, designed for use in very severe marine environments right up to the waterline, industrial applications and high-end buildings inland.

Distance from marine: 0m+

Your UniCote® Warranty

Support your specification with site specific-pre-approval

A UniCote® warranty pre-approval helps confirm that the selected product is suited to the project's location, application and environmental conditions. Submit a warranty pre-approval to support your specification with clear, site-specific assurance backed by a trusted Australian steel supplier.

WARRANTY

**Beyond Colour.
Australia's Premium Steel Choice.**
