Beyond Colour. Australia's Premium Steel Choice.

Protecting your investment, delivering lasting performance, and showcasing enduring style-UniCote® steel is the result of rigorous testing, decades of experience, and continuous innovation. Designed to perform and built to last, UniCote® brings confidence to every project while embracing the beauty of a refined, evolving colour palette.

Why UniCote®

Captivating Colour Range

Select from a palette of 21 colours that include timeless classics and modern shades.

Solutions for all Locations

Four-tiered steel and aluminium solution offering versatility and choice.

Tested in Australian Conditions

Manufactured to AS/NZS 2728:2013 and rigorously tested to perform in the harshest conditions throughout Australia.

Strong Warranties

Warranties up to 30 years.
Pre-approved within 48 hours.

Low Maintenance

Long lifespan and durability with minimal upkeep.

Non-Combustible

Fire rated and compliant to AS1530.1 / AS1530.3. Manufactured for the most extreme BAL-FZ category.

Reliable Local Supply

UniCote® is stocked nationally and supported by Selection Steel's established supply chain - ensuring fast turnaround and consistent quality you can depend on.

Support When It Counts

Backed by project-specific warranties and a responsive technical team to help with product selection and compliance.

Backed by Australian Expertise

Supplied by Selection Steel, a proudly independent, Australian-owned business with over 50 years of industry experience and a long history of supporting local manufacturing.
